Drone Wing

Technology: HP Industrial Filament (IF)

Solution: HP Industrial Filament (IF) 3D Printer 600 High Temperature (HT) Solution

Material: HP 3D Filament PEEK-CF and Soluble Support

Prototype or end-use part for the UAV drones where weight to strength ratio is crucial.

Using HP Industrial Filament technology to produce this part, the customer is now benefiting from:

- Actively heated chamber and certified HP profiles streamline process of producing UAV parts, letting engineers focus on the design not print optimalization
- Design freedom and complex geometry execution
