Fuel Injector Assembly Tray

Technology: HP Industrial Filament

Solution: HP Industrial Filament (IF) 3D Printer 600 High Temperature (HT) Solution

Material: HP 3D Filament PA-CF

Low volume production, custom made tray for manufacturing floor, optimized for proprietary components.

Using HP Industrial Filament technology to produce this part, the customer is now benefiting from:

- Durable Carbon Fiber Reinforced Nylon material
- Cost effective material for durable end-of-use parts, ideal for manufacturing environment fixtures, tooling and jigs.
- Representation of the large format Nylon CF part printed on HP IF Printer 600 HT Solution
